Response to Amendment

The reply filed on 23 May 2003 is not fully responsive to the prior Office Action because: a set of "original" claims was filed on 18 July 2003. On 5 November 2004 a "new" set of claims was filed. In the 5 November 2004 (treated as an amendment), which succeeded the set filed 18 July 2003, claim 1 specifically did NOT include "a fifth signal generator..." An Office Action was sent addressing the later set filed claims. The "other" amendment filed 23 May 2005 attempts to recapture previously deleted subject matter (only claims 12 – 18 appear in their "true original" form). Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

In view of the above, claims 1 – 11 are rejected. Claims 12 – 18 are given further consideration.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 – 11 are still rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Claim 1 (amendment filed 5/23/05 versus amendment filed 11/05/04) recites a “fifth signal generator” that is critical or essential to the practice of the invention, is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Accordingly, the claimed invention is subject to undue experimentation and the skilled artisan would not know how to make and/or use the invention. Claims 2 – 11 which depend upon claim 1 are necessarily rejected.

Allowable Subject Matter

Claims 12 – 18 are allowed as argued by Applicant.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3661

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
